

## **FHC Sliding Panel Roller Assembly - 1" - Plastic - Concave Wheel - Mortise Install (2-Pack)**

**Item No.** N6591

### **Features, Advantages, and Benefits**

- Used to replace worn or missing roller assemblies on sliding wood windows and panels

- The wheel has an outside diameter of 1 in., the housing width measures 1/2 in., overall housing length is 2-5/8 in
- Bottom mount roller assemblies with 2-3/16 in. hole center spacing
- Stamped steel housing with plastic wheel
- Wood screws included with roller assemblies

**Description:** Overview These roller assemblies are constructed of a stamped steel housing and feature a plastic, center grooved (concave) edge wheel. These types of roller assemblies are typically used on wood sliding windows and panels, and require a mortised installation. These roller assemblies fit Glide Master, and they are used by a variety of other manufacturers.
