Features, Advantages, and Benefits

- Used by Acme and a variety of other bi-fold door manufacturers
- Top track mounted

- Used with Prime-Line part N 6772 top pivot
- Stamped steel construction
- Adjustable design
- Mounting hardware included

Description: Overview This is a stamped steel top pivot bracket. It fits into the Acme 5/8 in. wide track. The bracket is inserted into the track and as the screw is tightened, it forces the bracket against the lip running the length of both sides of the track. It is adjustable by moving it back or forth to the best position. Used with the Acme top pivot Prime-Line part N 6672.
