

FHC By-Pass Mirror Door Bottom Track - 72" - Roll-Formed Steel - Champagne

Item No. N6881

Features, Advantages, and Benefits

- Used for new installs, or to replace missing or damaged bottom tracks of by-passing mirror doors that use convex (round) edge mirror door roller assemblies
- 72 In. length
- Champagne gold finish
- Roll-formed steel

Description: Overview This bottom track is constructed from roll-formed steel and comes finished in champagne gold. The track can be used for new installs, or to replace missing or damaged bottom tracks of by-passing mirror doors that use convex edge mirror door roller assemblies. They feature a double-grooved track as used by a variety of mirror door manufacturers, and can easily be cut for custom installs. These replacement tracks are sold individually and the installation fasteners are not included.
