Description: Overview This mortise cup closet door pull is constructed of stamped steel and comes finished in satin nickel. The outside diameter of this pull is 2-1/8 in. and it has a depth of 5/16 in.. These mortise cups set flush in the door and are used on by-passing closet panel doors to provide a pull for ease of opening and closing, and it they are used by many manufacturers. This item includes 2 pulls and 4 nails per package. Installation tip: to avoid damaging the pulls during installation; use a pair of needle nose pliers to hold the nails while hammering, then finish driving the nails with a nail set to seat them in place.
