

FHC Bi-Fold Door Repair Kit - For 7/8"- Wide Track And 3/8" Outside Diameter Pivots And Guides (1 Set)

Item No. N7283

Features, Advantages, and Benefits

- REPAIR BI-FOLDING DOORS - Easily repair one set of wood or metal hinged bi-folding doors with this all-inclusive DIY kit. For use with 3/8" outside diameter

pivots and guides in a 7/8" wide bi-fold door track.

- **INCLUDES** - This bi-fold door repair kit includes top and bottom pivots, 7/8" plastic guide wheel, steel bottom pivot bracket, wooden knob, white plastic snugger with steel spring, steel aligners and fasteners for all components. Please note: Track and hinges are not included.
- **CUSTOMIZABLE WOODEN KNOB** - The kit includes an unfinished wooden knob that can be stained or painted to match existing finishes.
- **EASY AND ECONOMICAL** - With everything needed to repair one 2-panel set of hinged bi-folding doors, you can quickly and easily fix an existing door rather than purchase a new one.
- **INSTALLATION TIP** - In a typical bi-folding closet opening, a pair of bi-folding doors is hung on the left side of the opening and a second pair of bi-folding doors is hung on the right side of the opening (a total of 4 narrow doors hung in left and right pairs). The contents of this kit provide for the repair of only one of those pairs, or for 2 of the 4 doors that are hung in a single opening. If you need to repair both pairs (or all 4 doors), please purchase two kits.

Description: Overview This bi-fold door repair kit includes replacement parts to repair one 2-panel set of hinged bi-folding doors. The plastic bases of the pivots and guide measure 3/8 in. in outside diameter, and the guide features a 7/8 in. outside diameter plastic wheel. A steel bottom pivot bracket and door aligner are also included, together with a wooden knob that can be finished in stain or paint. The snugger has a white plastic body with a steel spring, and the fasteners for all components are included with each package. Hinges are not included with this kit. These components are used by a variety of bi-folding closet door manufacturers. Tip: In a typical bi-folding closet opening, a pair of bi-folding doors is hung on the left side of the opening and a second pair of bi-folding doors is hung on the right side of the opening (a total of 4 narrow doors hung in left and right pairs). The contents of this kit provides for the repair of only one of those pairs, or for 2 of the 4 doors that are hung in a single opening.
