Item No. PL7722

Features, Advantages, and Benefits

- 3/4 in. x 3/8 in. Window Screen corners
- Bronze Molded Plastic
- Square Cut Screen frame, allow for part of the corner that extends from the end of the frame

- 4-pack
- Most often used on screens for sliding aluminum window
- May also be used to make or repair storm door screens

Description: Overview These are 3/4 in. x 3/8 in. plastic corners used for window screen panels that are designed to fit into square-cut ends of a 3/8 in. aluminum screen frame. They are designed to repair or construct new aluminum-framed screens quickly and easily. The square-cut assembly eliminates the need for miter cutting, providing for an easier frame construction by the homeowner or do-it yourselfer. Constructed of bronze plastic.
