

## **FHC Window Grille Retainer Pin (6 Pack)**

**Item No.** PL7983

### **Features, Advantages, and Benefits**

- Components of these grid retainer pins are constructed of plastic and steel materials
- Retainer sleeves and push-pin heads come clear in color to allow for best matching and blending with finished window frame surfaces

- Designed for use with removable window mullion grids
- Retainer sleeves feature ribbed design for improved gripping strength
- Easy to install with only a few simple tools
- For further dimensional and specification information, please see the line drawing

**Description:** Overview These Make-2-Fit Window Grid Retainer Pins are constructed from clear, durable plastic. The clear plastic construction allows them to blend and hide better with the window's finished surface. Each retainer features a steel-constructed pin secured in the center of the plastic shafts, and help to hold the window mullion grids onto the window frames. Included in each package are the retainer pins, and the pin bushing cups to allow for quick and easy installations. Use these window grid retainer pins on crank-out or push-out casement, awning and hopper type windows, on single and double-hung vertical sliding windows, on fixed and horizontal sliding windows.
