- Features a selection of (3) locking cams and two keys
- Easy to install with only a few simple tools
- For further dimensional and specification information, please see the line drawing

**Description:** Overview This Mailbox Lock by Prime-Line Products is a diecast constructed cylinder lock that comes with a chrome-plated face, brass pins, and a spring steel locking clip. This lock is designed to replace a variety of manufacturer's original equipment product, and it rotates a full 90 degrees counter-clockwise to open. This mailbox lock replaces locks on mailboxes manufactured by United locks, Auth-Florence and Bommer. This lock features a 7/8 in. outside diameter and three cams. Includes 1 lock and 2 keys.
