

FHC 1" Diameter Face - Mailbox Lock - No Cams - Diecast Construction

Item No. S4710

Features, Advantages, and Benefits

- 1 Per Pack
- Used to replace damaged or missing mailbox locks by Auth-Florence
- 1 in. outside diameter face
- Diecast cylinder with brass pins

- Diecast steel construction with a zinc plated finish
- Spring steel locking clip fastener included
- Includes 5 pin tumbler and 2 keys

Description: Overview This mailbox lock is constructed of diecast and comes with a nickel-plated face. This item does not include any cams, only the spring steel locking clip required for installation of lock. Features a spring-loaded key hole dust cover, brass pins, a square drive and nut with star washer for cam attachments. To unlock this mailbox lock, the key must rotate 90 degrees in a clockwise direction, and the key is not removable from the lock until it is returned to the locked position. Replaces Auth-Florence mailbox locks. Note: When determining cam dimensions, the locking dimensions are of primary concern. Shape of cam is secondary.
