- Designed with a time-tested, jimmy-proof mechanism that helps prohibit forced entry
- Features surface mounting installation with slam latch engagement and anti-lockout switch
- Easy to install with only a few simple tools
- For further dimensional and specification information, please see the line drawing

Description: Overview This Segal Slam Lock by Prime-Line Products features a surface-mounted housing that is constructed of solid high strength bronze alloy, and it comes in a beautiful brass-plated finish. Its jimmy-proof design locks automatically when a hinged door it is mounted to is closed. To prevent getting locked out, it features a deactivation mechanism that can be set to inactive. The cross bolt locking feature helps to prevent forced entry and mounts to wood or metal doors. This lock includes both a flat strike and an angle strike.
