

FHC Bronze Deadlock - 666A - Single Cylinder - Angle Strike - Brass

Item No. SE15316

Features, Advantages, and Benefits

- Constructed of high strength bronze alloy, built tough to help secure entry doors against forced entry
- Components come in a beautiful, corrosion resistant, brushed chrome plated finish

- Designed with a time-tested, jimmy-proof mechanism that helps prohibit forced entry by separation of door from jamb
- Features surface mounting installation with cross-bolt locking
- Easy to install with only a few simple tools

Description: Overview This double cylinder deadlock is constructed of diecast and it comes in a brass colored finish. It features a jimmy-resistant design which prohibits forced entry when attempts are made to spread the door away from the frame. This is a surface-mounted, cross-bolt locking device which can be mounted to 1-3/8 in. to 2-3/8 in. thick, wood or metal doors. This door lock includes an angled strike, a rim cylinder, 2 keys, a cylinder trim ring, fasteners, a mounting plate, instructions and a tamper-resistant shutter guard. This lock requires a 1-1/4 in. hole and uses Segal keyway. It is keyed differently, but it is also available keyed alike via special order from manufacturer. See Prime-Line's model number U 9970 for a single cylinder deadlock, or model number U 9971 for the single cylinder deadlock in a white painted finish.
