

**FHC Extension Spring - Spring Steel
Construction - Nickel-Plated Finish -
0.120 Ga x 1-1/16" x 5-1/2" - Single
Loop Open - (1-Pack)**

Item No. SP9625

Features, Advantages, and Benefits

- For use in a variety of applications; appliances, automotive, marine, toys, tools, mechanical devices, contraptions and more
- These extension springs are designed with single loop open ends for easy and reliable fastening to fixed and moving parts
- Spring dimensions: 1-1/16 in. outside diameter, 5-1/2 in. length, 0.12 in. wire diameter, 48.2 lbs. maximum safe load, 3.62 in. maximum deflection
- All springs come in a beautiful, corrosion resistant, nickel plated finish allowing them to be used both indoors and out
- Constructed of durable spring steel (tempered steel wire) to provide optimum retraction when stretched

Description: Overview This hobby Horse extension spring is constructed of spring steel and comes in a nickel plated finish. It is designed to replace broken or missing springs on children's hobby horse toys, but it is also used for many other household applications. This spring features single looped, open ends (as opposed to single and double looped closed ends) and it has a 48.2 lb. maximum load capacity. The dimensions of this spring are 0.120 diameter wire gauge x 1-1/16 in. diameter x 5-1/2 in. length. This hobby horse spring has a generous deflection length of 3.62 inches. It is easy to install and it is used by many.
