Description: OverviewThe Swiss+Tech represents a quantum leap in the art of micro-tool making. They are compact, easily transportable tools that combine craftsmanship and innovation to create a new category of patented consumer products--Key Ring Tools. Unlike all other multi-function tools, many Swiss+Tech tools have a patented, quick-release, integrated locking system that attaches to any key ring, thereby eliminating the need for an additional ring or belt holster. These innovative, high quality, lightweight products fulfill a common need--having the tools you need when you need them. They make a great gift. The Key Ring Multi-Tool 7-in-1 offers a range of handy tools on your key chain that are with you when you need them including an LED flashlight, Phillips screwdriver, knife, awl, bottle opener, flat screwdriver and key ring. Each tools snaps into position for stability, and the built-in flashlight with a soft-squeeze on/off button and an ultra-bright, 100,000+-hour LED lights your work. Replaceable batteries are included.
