

FHC Shelf Support Peg

Item No. U10166

Features, Advantages, and Benefits

- Used to support adjustable shelving
- 5 mm outside peg diameter x 11/16 in. overall length with 1/4 in. x 3/8 in. seat
- Nickel plated finish
- Steel construction

Description: <h2>Overview</h2><p>These shelf support pegs are constructed from heavy-duty steel and come plated in a bright nickel finish. They are designed to fit into

5 mm. (3/16 in.) diameter holes, making them perfect for most metrically sized imported cabinets and bookshelves. Each peg has a 25 lb. maximum safe load. Can be used for many heavier-duty applications such as in furniture with glass shelves. Shelf support pegs are easy to install and are used by a variety of manufacturers.</p>
