

FHC Stainless Steel - Wood Window Vent Latch (2 Pack)

Item No. U10683

Features, Advantages, and Benefits

- Double hung flip locks like these are most commonly used on wood-constructed single and double hung vertical sliding windows
- This lock features a wedge-shaped hinged flaps which are designed to stop the sash from sliding

- Universal design allows this lock to be used on windows by multiple manufacturers
- Constructed of stamped steel
- These sash window flip locks come in an antique brass-plated finish

Description: Overview These flip action window sash locks are constructed of stamped steel, and they come in a stainless steel finish. Locks feature a universal design making them compatible with multiple manufacturer's wood windows. Designed for use on vertical sliding windows constructed of wood, and can be used on both single and double hung sliding windows. Each wedge-shaped flap swings out of the way of the alternate sash's path of travel, allowing the window to open.
