

FHC Door Reinforcement Lock - Add Extra - 3" Stop - Aluminum Construction - Satin Nickel (Single Pack)

Item No. U10827

Features, Advantages, and Benefits

- **KEEP YOUR HOME SAFE** – Designed to withstand 800 lbs. of force, this U 10827 satin nickel finish door reinforcement lock helps to prevent doors from being kicked in, increasing your home security and keeping you and your family safe!
- **EASY INSTALLATION** – The included 3 inch hardened screws make installation a breeze – extra security and peace of mind can be achieved in just minutes. Watch the video on this page for installation tips and operating instructions.
- **ADDITIONAL HOME SECURITY** - Use this high security door reinforcement lock for additional home security on any swing-in door of any door thickness. It helps to ensure any door cannot be opened from the outside.
- **CHILD-SAFE AND TAMPER-RESISTANT** – This door reinforcement lock has a spring-loaded design that is both child-safe and tamper-resistant. Plus, not only can doors not be kicked in by intruders, it protects against lock picking and bumping while in the locked position.
- **PRE-DRILLING** – The included 3 in. security screws require holes to be pre-drilled with 1/8 inch drill bit. Do not use a drill driver with max torque setting to install the 3 inch screws as you can strip or break the heads. Use a handheld screwdriver for best results.

Description: Overview Add an extra layer of security to your home with this Defender Security Door Reinforcement Lock. Designed to withstand 800 lbs. of force, you can rest easy knowing your family is safe and protected! This reinforcement lock has a spring-loaded design, aluminum construction and a satin nickel anodized finish. This reinforcement lock can be quickly and easily installed on any swing-in door of any thickness, and can help ensure the door cannot be opened from the outside by being kicked in. Additionally, it's tamper-resistant, so it can protect against lock picking and bumping. Plus, it's child-safe, because you can install it higher on a door, where your young ones can't reach. Length is 2 to 0.19 inch. Width is 1 to 0.38 inch. Installation takes minutes, and the U 10827 door reinforcement lock comes with 3" hardened screws. Extra home security and peace of mind are well within reach - and doesn't have to come with the high price tag of an alarm system! This high security door lock meets the Texas building code requirements. Be sure to view the manufacturer's How-To Installation Video also linked to this page, in the upper left-hand corner.
