Description: Overview This Sash Lock by Prime-Line Products is constructed of steel and comes in a beautiful, corrosion resistant, satin nickel-plated finish. It is a heavy-duty grade sash lock and features a cam-style latch action that provides a strong, rattle-resistant lock. Sash locks like these are used on both single hung and double hung, vertical sliding wood windows. For best results, follow the installation instructions included with each package. Using only a few simple tools, these locks are easy to install.
