

FHC Security Latch Strike - 1-1/8" x 4-1/4" - Stamped Steel Construction - Chrome-Plated Finish (Single Pack)

Item No. U9474

Features, Advantages, and Benefits

- Security latch strike is used to help increase the security of entry doors, more so than standard, smaller strike plates

- Stamped steel construction with a chrome-plated finish
- Installation of this security strike plate provides the most economical way to reinforce a door
- Two 3 in. long screws provided for maximum security
- Fastens into jamb and outer door frame with screws
- 1-1/8 in. wide x 4-1/4 in. long

Description: Overview This is a heavy-duty security latch supplied with 3 in. long wood screws to allow additional security by fastening thru jamb into the 2 in. x 4 in. outer door framing. Replaces standard strikes and provides improved security.
