

FHC Door Hole Cover Plate - Maintain Entry Door Security By Covering Unused Hardware Holes - 2-5/8" Diameter - Brass Plated (Single Pack)

Item No. U9516

Features, Advantages, and Benefits

- **MAINTAIN SECURITY** – Use the Prime-Line Door Hole Cover Plate to help maintain security and privacy on entry doors where the knob latch or deadbolt hardware is no longer being used. Cover up holes that may allow for unwanted entry or invasion of privacy.
- **CONCEAL HOLES** – This door hole cover plate can cover bores and holes from 1/2" diameter up to 2-1/8".
- **EASY INSTALLATION** – With only two fasteners to install, installation is quick and easy, and the door hole cover plate can conceal most bores and holes for additional security and privacy. All the necessary mounting hardware is included.
- **HEAVY DUTY** – Made of heavy-duty gauge steel with a brass finish, this door hole cover provides peace of mind and extra security, plus it's durable and made to last.
- **SIZING** – This door cover plate has a 2-5/8" outside diameter and fits on doors up to 1-3/4" thick. For further dimensional information, please see the line drawing.

Description: OverviewSecure your entry doors with the Prime-Line door hole cover plate. This is a hole plate cover used to conceal round holes in doors from 1/2 in. to 2-1/8 in. in diameter. Constructed from stamped steel and comes in a brass finish. It is typically used to cover-up a single bore hole in doors that are up to 1-3/4 in. thick. Helps to maintain security for your home or business. All the necessary mounting hardware is included for a quick and easy installation.
