

FHC Pflip Action Door Lock - Reversible Antique Brass Privacy Lock With Anti-Lock Out Screw For Child Safe Mode - 2-3/4" (Single Pack)

Item No. U9873

Features, Advantages, and Benefits

- **STEEL PRIVACY LOCK** – Add an additional privacy lock to your interior doors with this flip action door lock. The hinged portion of the lock flips over the door to lock.
- **REVERSIBLE DOOR LOCK** – This reversible door lock can be used on right or left-handed swing-in doors.
- **CHILD SAFE MODE** – An anti-lock out screw is included for child safe mode, preventing the lock from engaging on its own. This lock should be installed high on the door.
- **EASY INSTALLATION** – Installation is quick and easy, and the flip action door lock fastens to the door jamb with two screws. Surface mount, no mortising required.
- **DURABLE, STRONG CONSTRUCTION** – Made of brass, this door lock is strong and durable, sure to last the test of time.

Description: Overview Add an additional privacy lock to your interior doors with this flip action door lock. The hinged portion of the reversible lock flips over the door to lock, and it can be used for right or left-handed swing-in doors. An anti-lock out screw is included for child safe mode, preventing the lock from engaging on its own, for additional child safety measures. This lock should be installed high on the door. Installation is quick and easy, and the flip action door lock fastens to the door jamb with two screws. It's a surface mount installation with no mortising required. Made of antique brass, this door lock is strong and durable, sure to last the test of time.
