

FHC Swing Bar Lock For Hinged Swing-In Doors - 3-7/8" Bar Length - Diecast Zinc Construction With An Antique Brass Finish (Single Pack)

Item No. U9899

Features, Advantages, and Benefits

- **SECURITY LOCKING DEVICE** - This U 9899 Swing Bar Lock is a security locking device for hinged swing-in doors, allowing a door to be slightly opened to allow safe viewing and ventilation.
- **CHILD-SAFE SECURITY DEVICE** - This swing bar lock can also be installed out of reach of children so they cannot open the door by themselves, providing additional child-safe door security.
- **EASY INSTALLATION** - Installation is quick and easy - additional security for your doors are within reach! Installation fasteners, including plastic shim spacers for leveling, are included.
- **DURABLE CONSTRUCTION** - This swing bar lock is constructed of zinc diecast with an antique brass finish. It's strong and durable, sure to last.
- **PRODUCT INFO** - This U 9899 swing bar lock has a long, hinged bar, which folds over the closed door to engage the catch. 3-7/8" bar length x 2-1/2" height.

Description: OverviewSecure your home or office doors with additional security with the U 9899 Swing Bar Lock. This door bar lock is a security locking device for hinged, swing-in doors, allowing a door to be slightly opened 2" to allow safe viewing and ventilation. The 3-7/8" long hinged bar folds over the closed door to engage the catch, adding extra security to your swing-in door. It can also be placed out of reach of children, high on a door, so they cannot open the door themselves and enter or exit into dangerous areas. This swing bar lock is constructed of zinc diecast with an antique brass finish. It's strong and durable, sure to last, and installation is quick and easy. All installation fasteners are included, including shim spacers for leveling. 3-7/8" bar length x 2-1/2" height.
