

FHC Diecast With Brass Finish - Casement Window Sash Lock (Single Pack)

Item No. U9935

Features, Advantages, and Benefits

- Used on inswing or outswing casement windows
- Non-handed for right or left installation

- Can also be used on cabinets for a retro look
- Diecast and stamped steel construction in bright brass
- Three different keepers for a variety of mounting options
- Mounting hardware not included

Description: Overview This is an older style of casement diecast lock painted with a bright brass finish. Used on older style wood swinging casement windows. It has three different keepers that allow for most mounting applications whether it be a swing in or swing out casement window. Installation screws are included. Besides being used on casement windows, it is often used on cupboards and cabinets for that retro look.
