- Kit Includes: Pre-Mitered Rails with Pre-Installed Rollers and Corners, Adjustment Screw, Pull, Latch Hook, and a Bug Strip
- Available in Four Standard Finishes and Multiple Sizes
- Ships UPS
- Screen Wire Mesh Sold Separately

Description: Overview FHC's Heavy-Duty KD Sliding Screen Door Kits feature durable extruded aluminum constructed frames, with an industry standard corner key/roller system. The kit includes pre-mitered top and bottom rails with pre-installed steel ball bearing rollers and corners, a hidden roller adjustment screw, a universal style plastic pull handle with a steel latch hook, and a vinyl bug strip. For custom sizing, the frames are easily "cut-to-size" in both width and height. NOTE: Screen wire mesh is sold separately.
