

FHC Green Polyester Heat Resistant Tape 3.2 mil Thick - 216' Roll

Item No. PT72G

Features, Advantages, and Benefits

- Designed for use in Autoclaves & Heat Soaking Ovens
- Also Designed for use in Powder Coat Ovens
- 72 yd Roll

- Durable Polyester Material: Features A Dark Green Polyester Film With Silicone Adhesive For Superior Thermal, Abrasion, And Chemical Resistance
- Precision Paint Lines: The Tape's Unique Backing Ensures Sharp And Clean Paint Lines, Crucial For Quality Finishes
- High Heat Resistance: Silicone Adhesive Provides Significant Heat Resistance, Minimizing Issues Like Softening And Adhesive Transfer
- Adhesive Strength On Tough Surfaces: Sticks Reliably To Challenging Materials, Including Those With Mold Release Coatings
- Optimal Storage For Performance: Maintain Between 60° To 80°F (16° To 27°C) And 40 To 60% Relative Humidity For Best Adhesive Properties
- Quality Assured: Manufactured Under A Quality System Registered To ISO 9001 Standards, Reflecting A Commitment To High Standards And Consistency
