

FHC Tripod Glass Drilling Machine - 110V

Item No. FHC3

Features, Advantages, and Benefits

- Variable Speed 0-1400 RPM
- 1/2" Chuck for Most Straight Shank Drills
- Dual Adjustment System for Quick and Micro Depth Adjustments
- Self Drilling Design to Reduce Operator's Pressure

- 110v - 6 Amp Motor

Description: <h2> Overview </h2><p>The FHCTripod Glass Drilling Machine comes standard with an Industrial Grade 6 amp motor with Ball Thrust bearings which provides a variable speed up to 1400 rpm. The 1/2" Chuck is a plus on this Drill Machine for a broad range of Drill usage up to a 6" Diameter. The Dual Adjustment System for Quick and Micro Depth Adjustments - reduces glass chipping while the Non-Skid Rubber Leg Caps minimize vibration and add stability.
