

FHC Toyo Straight Supercutter - Brass Handle

Item No. TOY17B

Features, Advantages, and Benefits

- Most Popular Cutting Tool Among Glass Professionals
- Durable Heavy Brass Barrel and Self-Oiling Reservoir

Description: <h2>Overview</h2><p>The original, self-oiling, TOYO Brass Supercutter was introduced in 1976 and remains today as the most popular cutting

tool among glass professionals in the United States. Manufactured with a heavy brass barrel it is a durable work-horse that will last a lifetime with proper care, maintenance and an occasional new blade.

Notice

While scoring, the reservoir oil-fill cap should be opened a 1/2" turn to improve oil flow. As with all self-oiling cutters, the first use requires priming the oil system by depressing the cutting head several times until oil reaches the wheel.
