

FHC Toyo Pistol-Grip Thick Glass Supercutter With Tap Wheel

Item No. T0Y600SVB

Features, Advantages, and Benefits

- Designed for 1/2" - 3/4" Thick Glass
- TOYO Tap Technology Increases Score Efficiency
- Pistol Grip With a Self-Oiling Reservoir

Description: <h2>Overview</h2><p>TOYO Tap Wheel Thick Glass Supercutter is designed to score thick glass up to 3/4". The combination of a Pistol Grip, automatic oil-feed and Toyo's Tap Wheel technology on a 153-degree blade makes the T0Y600SVB our best thick glass cutter. TOYO's patented Tap-Wheel® Technology adds a micro vibration as the wheel rotates, driving scores deeper with less applied pressure resulting in easier breakouts, cleaner edges, less hand fatigue and a longer lasting tool.</p><h2>Notice</h2><p>While scoring, the reservoir oil-fill cap should be opened a 1/2" turn to improve oil flow. As with all self-oiling cutters, the first use requires priming the oil system by depressing the cutting head several times until oil reaches the wheel.</p>
