Item No. TW535

Features, Advantages, and Benefits

- Improves Saw Blade, Drill Bit and Sanding Belt/Disc Performance
- Lubrication Reduces Friction to Increase Working Life
- Helps Keep Cutting Surfaces Sharp and Rust Free
- Case Qty = 24

Description:

Overview

FHC Tube Wax Lubricant will increase performance and working life of your saw blade, drill bit and sanding belt or

disc. Housed in the convenient tube, just cut through, drill in to or place against the sanding disc or belt and the working surface is lubricated for your immediate task. The wax will also help keep the blade clean and rust free.

* Always wear the correct safety gear to protect yourself. Failure to do so may cause serious operator injury.
