Description: OverviewThe FHC 120" Aluminum Smoke Baffle is engineered to create unobtrusive smoke curtains/barriers for large offices and retail establishments. They help control, and are essential in containing smoke movement in the event of a fire allowing the occupants time to exit the building.. Many regions will require smoke baffles as part of the building code for office or commercial areas. FHC offers stock and custom options for your Smoke Baffle System in five standard Architectural Finishes. Use with 1/2" Tempered Glass.Shipping and Ordering Case quantity orders ship common carriers (six per case). Orders for cladding will only ship in quantities of six, and are otherwise only eligible for will call pick-up. **WARNING: Cancer and Reproductive Harm. Learn More P65Warnings.ca.gov**
