

FHC Acrylic Quarter Dome 90 Degree Mirror

Item No. QDPLX

Features, Advantages, and Benefits

- For Use Indoors
- Plastic Molded Back
- Several Sizes Available

Description: Overview FHC Acrylic Quarter Dome Mirrors are best used for two-way intersections. Constructed of .125" thick cell cast acrylic for high strength, FHC Acrylic Dome Mirrors are virtually unbreakable while remaining lightweight. The surface of the Dome Mirrors does not fade over time, keeping their bright image. FHC Acrylic Dome Mirrors come with plastic backs and are quick and easy to mount.
