Description: Overview FHC Drop-In Deal Trays are made with 16 gauge, 304 stainless steel. These 2" deep Drop-In Deal Trays are used in financial institutions, grocery stores, banks, gas stations, and other venues where transactions occur. The flush mount Drop-In Deal Trays allow tellers and customers to handle cash or other types of transactions behind a secure barrier such as glass or plexiglass. This provides security and safety while not interfering with day-to-day business. Choose either a brushed or tom sizes are also available upon
