

FHC 3" Jaw IG Caliper - Fractional

Item No. 3JAWCAL

Features, Advantages, and Benefits

- Measures Glass Thickness without Having to Remove Trim
- Ideal for Measuring Insulated Glass in Sliding Doors and Windows
- Easy-to-Use
- Measurement Scale Visible on Either Side
- 3" and 6" Jaw Available

Description: OverviewThe 3JAWCAL greatly reduces the time spent when measuring the thickness of insulated glass. To use, just slide the jaw open and place around the sash frame. Then slide closed until you hear the adjusting screw touch the glass, and read the exact thickness on the scale of the caliper.
