

Makita® 4-1/2" Angle Grinder - 110 Volt - 6 AMP

Item No. AG4530

Features, Advantages, and Benefits

- 6 AMP Motor Allows Angle Grinder to Handle Tougher Jobs
- Easy to Handle: 2-1/4" Diameter Barrel and 4 lbs. Weight
- Bearings, Motor and Armature are Well Protected, Allowing Longer Tool Life and Durability

- Service Life Doubled from Older Models
- Side Handle Positioned to Increase User Comfort
- Double Insulated

Description: <h2>Overview</h2> <p>The AG4530 is a powerful 6 AMP 4-1/2" angle grinder with a long-last industrial grinding performance. With a wide range of grinding applications, the Makita 4-1/2" Angle Grinder is an essential tool for glaziers, masons, welders, ship yard workers, automotive technicians, stone/tile work, HVAC, electricians, and general contractors.</p> <p>The 6 AMP motor delivers 11,000 RPM for the most demanding applications. The machined bevel gears are engineered for longer tool life, and the all-ball bearing design and metal gear housing are engineered for added durability. Labyrinth construction seals and protects the motor and bearings from dust and debris for longer tool life. In addition, the armature is sealed by a protective zig-zag varnish which prevents contamination by creating a barrier under rotation.</p> <p>* Always wear the correct safety gear to protect yourself. Failure to do so may cause serious operator injury.</p> <p>* Please contact us if there's any concern.</p><p></p>
