

FHC 60" Pry Dolly

Item No. PBAR60

Features, Advantages, and Benefits

- Large 5" (127 mm) Diameter Poly-on-Steel Wheels
- 4250 (1932 kg) Pound Capacity
- Strong Hardwood Handle

Description: Overview The FHC 60" Pry Dollies are made to move extra large crates, cases of glass, or large machinery. The 5" x 2" poly-on-steel wheels provide a smooth roll, while the beveled nose lifting plate offers plenty of prying strength. Use Instructions To lift an object with the pry bar dolly, Slide the pry plate under the object. Apply steady pressure to the axle to push the plate under the object. Carefully pull down the end of the handle. Make sure that the pry plate does not slip out from under the object.
