- Auto-Tracking Belt System Tracks Belt without Adjustment
- Large Front Grip and Low Noise Level (85db) for Ease of Use
- Sand Flush to Wall with Nose and Side of Sander
- Includes a 3" x 21" 80 Grit Abrasive Belt and Dust Bag

**Description:** Overview The Makita® 3" x 21" Belt Sander combines power and speed with ease-of-use features and less noise for fast and efficient stock removal. Ideal for woodworkers, carpenters, furniture makers, floor installers, deck builders and general contractors who require a best-in-class belt sander. Features a powerful 8.8 AMP motor with electronic speed control to maintain constant speed under load. The variable speed control dial allows the user to match the speed (690-1,440 ft./min.) to the application. Also features less noise: at only 84dB, it is one of the quietest sanders in its class.
